Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

Claims 1, 5 are objected to because of the following informalities: Claim 1 is objected to because the claim consists of three separate sentences with three separate periods and should read as one singular sentence. Further claim 5 includes the numbers 3, 5, 6 (lines 1, 2) in the body of the claim which make the claim confusing and unclear. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The expression "the maximum movement distance" (claim 4) has no definite antecedent basis in the claims.

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter: The prior art of record does not teach or suggest a table assembly including a stacked table assembly, the structure is comprised of a main table consisting of a plurality of primary table legs postured vertically on the floor for support and a minimum of two tables stacked under the top of the main table, an upper level table that must be a flat surface situated beneath the tabletop of the main table and has a surface area

Art Unit: 3637

that is smaller than that of the main table tabletop, long leg rods and short leg rods of different height are disposed below at the two sides of the tabletop with the short leg rods stacked above a lower level table and the long leg rods at the other side vertically situated on the floor for support, the lower level table must be a flat surface situated beneath the upper level table and has a surface area that is smaller than that of the main table tabletop, the upper level table is horizontally stacked above the lower level table, and long leg rods and short leg rods of different height are disposed below at the two sides of the lower level table, each vertically situated on the floor for support.

Allowable Subject Matter

Claim 4 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Smith, Knoll, Wiese, Spound et al, Weese, Grabowski et al, Santapa, Rhealt et al, Moore, Suter, Caruso teach structure similar to applicant's.
